

Montgomery & West
DEPARTMENT STORE

There are seven districts in the province and the commissioners in charge are: Major delatola Thibaudan, Edmonton, Jno. P. Stanton, Vegreville, Victoria district; A. J. McAuley, Toronto, Stratford district; P. W. G. G. Smith, Red Deer; R. E. Moffatt, Calgary, Lethbridge district; H. V. Gibbons, Lethbridge, Medicine Hat district; and J. W. Dingle of the Calgary district.

Mass of Information
It will be the duty of the commissioners to see that their respective districts are laid out in such a working manner as to permit of the completion of the task of census taking in the rural districts within a period of 21 days, dating from June 1st. "Schedules," of which there are thirteen, are printed forms, which when properly filled out will give the department information relative to the act, etc., of all persons enumerated, also the number of farms under cultivation, the number of factories, churches, Sabbath schools, public schools and public institutions of various sorts. The enumerators, nearly all of whom have been appointed, are paid a fixed rate for every mile or less than one mile, which has yielded at least \$50 worth of produce, 25 cents for every factory, 20 cents for a record of every church, Sabbath school, public or private school or similar institution, 25 cents for a record of every dairy produce factory and so on through a list which embraces about everything imaginable. In the mining districts an allowance of 50 cents is made for every mile or less than one mile, which has yielded at least \$50 worth of produce, 25 cents for every factory, 20 cents for a record of every church, Sabbath school, public or private school or similar institution, 25 cents for a record of every dairy produce factory and so on through a list which embraces about everything imaginable.

Compensation to enumerators.
Five cents for every individual name furnished, 10 cents for every record of death, 10 cents for every record of birth, 10 cents for every working man, the provisions of the Compensation Act, 25 cents for every farm of five acres or over, 15 cents for every farm of more than one acre and less than five, 10 cents for every lot of less than one acre, which has yielded at least \$50 worth of produce, 25 cents for every factory, 20 cents for a record of every church, Sabbath school, public or private school or similar institution, 25 cents for a record of every dairy produce factory and so on through a list which embraces about everything imaginable. In the mining districts an allowance of 50 cents is made for every mile or less than one mile, which has yielded at least \$50 worth of produce, 25 cents for every factory, 20 cents for a record of every church, Sabbath school, public or private school or similar institution, 25 cents for a record of every dairy produce factory and so on through a list which embraces about everything imaginable.

Commissioners Compile Statistics
The commissioners under whose supervision the enumerators are allowed a rate of one cent for every name furnished by the enumerators of their particular district. Suppose for instance, that the province of Alberta's population is 50,000. This would net commissioner Dingle an even \$500. In addition to this the commissioners are allowed a special amount for expenses in covering their respective districts. It is the duty of the commissioner to receive the statistics from their enumerators and to compile the information into a form such as to be readily understood by the general public. Large office staffs are organized and the statistics may be compiled within the required time.

Pledged to Secrecy
The enumerators and commissioners are supplied with a book of instructions, consisting of a number of questions and answers in English, with the same instructions duplicated in French under section No. 21, all officials are pledged to secrecy and are not permitted to divulge any information whatever, except to duly authorized superior officers. Neither is any employee of the census department permitted to "leak out" his work, or to assist in any way to a substitute.

Census Must be Thorough
The "house" of any person under section 24 is interpreted as meaning the household, which is defined as enumerated, that is the place where the person sleeps and habitually dwells, this system preventing the listing of such a business and residential address of any individual. Enumerators are carefully instructed to make a thorough census, to take nothing for granted. They are also instructed particularly to write their information in a legible hand, using black ink and not the use of ditto or other abbreviation marks. An apartment house or hotel counts only the number of families which may be residing therein.

Other Duties of Enumerators
Particular care is taken in gaining immigration statistics. For those of foreign birth, the year of their first entry into Canada should be given and to those of Canadian birth who have been absent from Canada the year of their returning home to remain permanently should be given. Strict regulations are also provided for the enumeration of naturalized citizens. Provisions are also made and definite instructions laid down for enumerating the profession, business, trade, occupation or means of livelihood of every person listed.

Attention is also directed to the subject of education and language and if these instructions are carefully followed the government will be well supplied with information as to the proportion of English and foreign languages spoken in Canada and also as the degree of education with which the citizens have been blessed or otherwise. All told, the enumerators and commissioners are confronted with 255 paragraphs of instructions to read and become thoroughly conversant with, which would consume as much time as would the actual census taking.

AT LAST, A CURE FOR RHEUMATISM

"Fruit-a-lives Cured Me!" Says Mrs. Baxter. "I have suffered from rheumatism for nearly a year. All down the right side, the pain was dreadful and I could not move for the agony. I was treated by two physicians without help. I saw 'Fruit-a-lives' advertised in 'The Telegram' and decided to try them. After I had taken one box, I was much relieved. I had taken three boxes, I could use my arms and the pain was almost gone. After taking five boxes, I was entirely well again. The cure of my case by 'Fruit-a-lives' was indeed splendid because all the doctors failed to even relieve me. 'Fruit-a-lives' cured me."
—Mrs. LIZZIE BAXTER.
A HOUSE PLACE, TORONTO, Dec. 15, 1900.

In hundreds of other cases, "Fruit-a-lives" has given exactly the same satisfactory results because "Fruit-a-lives" is the greatest blood purifying medicine in the world. "Fruit-a-lives" (the famous fruit medicine) regulates kidneys, liver, lungs and skin and prevents the accumulation of uric acid, which is the prime cause of Rheumatism. "Fruit-a-lives" will positively cure every case of Rheumatism, when taken according to directions, 25c. a box. For \$2.50, or trial size, 25c. At all dealers or from Fruit-a-lives Limited, Ottawa.

REVISED SCHOOL PROGRAM
A few days ago a committee met in Edmonton attempting to solve the knotty problem of a revision of the program of studies. This committee is large and represents all the various elements in matters educational within the province. It is, acting under authority of the Department of Education, to draft a new program which shall be made in keeping with the necessities of the schools. Under the terms of the revision, the committee will be asked to make the most of the present standards be established and grades, corresponding to each to one year of the school course be substituted. There are taken 25 grades, 3 in the public school and four in the high, and the most marked feature of the work is to be gradual introduction and development of the various subjects.

As an illustration of the way this work out an outline of the suggested program in history may be taken. History is to be introduced in the fourth grade (pupils 10 to 14 years old) with a study of human history. This follows the story of the settlement of the province and Indian life, especially within the province. Stress is to be laid upon the picturesque side of history. Patriotic poems are to be read and memorized, thus closely connecting the study of history with the general reading. The main object is not so much to impart knowledge as to have a general idea of the importance and results of the various events and actions and to arouse in the pupil a taste for historical reading. In grade III an outline of the history of Canada is to be introduced. This idea in handling this subject is to begin with the family and to work gradually up through the forms of municipal government, up through the provincial to the federal.

This general plan of gradual development is carried through all the subjects, too, and including Nature Study, Manual Training, Domestic Science and the like. On these latter, indeed, much stress is laid. Very full program of study has been drafted.

NEW BRUSH CUTTER
A new power brush cutting machine has just been tried out in the brush lands southeast of town by Mr. Magnus Weber, which promises to revolutionize the brush cutting difficulties which some of the farmers of this western country have to contend with. The cutter is connected up with a 25 h.p. gasoline engine by heavy beams braced under the engine which pushes the cutter through all obstacles in its way. The cutter itself is an equilateral triangle, and has a twelve foot cutting blade on each side with 10 inch blades, and is so constructed that while it is attached to the engine solidly it is still limber enough to follow all inequalities of the land independently of the engine. The saving of labor and time is fully demonstrated when it is stated that this machine saves the use of sixteen horses and eleven men under the old system of cutting brush with the horse power cutters, as it will do the work of four of these machines and will cut trees 3 inches thick as though they were twigs. It is figured that twenty acres a day can be cut easily with this machine.

A trial demonstration was given on Monday to a large number of business men who were all loud in their praise of the work done by the machine and who congratulated Mr. M. Weber on his ingenuity in constructing it. —Didsbury Pioneer.

Sick headache results from a disordered condition of the stomach and can be cured by the use of Chamberlain's Stomach and Liver Tablets. Try it. For sale by dealers everywhere.

RAILWAY CONSTRUCTION, which has been associated with the town of Camrose ever since its birth, will be in full swing again this summer, with the construction of the C.N.R. cut-off from Camrose to Strathcona. Engineer Christopherson and his staff arrived on Thursday to make the final survey for the first ten miles of the line following the left bank of the river in Winnipeg on Tuesday. Several sub-contractors are busy getting the outfit on the ground and a large railway camp is being organized to the north of the town. It is reported that about fifty teams will be making the dirt job on the grade by next Monday.

Every effort is being made by the C.N.R. and C.P.R. branch lines through Camrose to get the roadbed in shape for passenger service in June. On the C.N.R. one hundred and twenty men are at work building the track between Edberg and Meeting Creek. Eight trains a day are carrying gravel from the pit at Stettler, but the Bettie River pit will also be

The extent of life-saving which has followed the discovery of diphtheria antitoxin is indicated by some statistics quoted by the New York Outlook: In the year 1890, the deaths from diphtheria in the registration area of the United States, comprising nine states and 133 cities, were 975 for each 100,000 of the population. In 1900 the rate was 43.2. No figures since 1900 are available for the country as a whole. But in the State of New York, where the rate in 1900 was 43.2, or almost exactly the average for the whole country, it had declined by the year 1908 to 23.3. If these statistics apply with equal accuracy to Canada, over six thousand lives that would have been lost last year pre-diphtheria conditions, were saved in the Dominion last year. Applying these proportions to the civilized nations and the extent of Koch's discovery to the world being to be realized. Nevertheless, Koch's is almost an unknown name, save in the name of science. Whereas Napoleon was widely known, even by the name of the man who discovered the germ of cholera, perhaps the most famous of all men.

C. P. R. SHORT LINE
A thirty-two hour service between Edmonton and Winnipeg, over the new C.P.R. line via Wetaskiwin and Saskatoon, will be inaugurated on June 4th, according to the announcement made by F. W. Peters, assistant to Vice-President Whyte, of the C.P.R. Trains will run into Strathcona and eventually into Edmonton, over the new main line on a 32-hour schedule arriving at Strathcona at 6:30 in the morning, leaving Winnipeg at 10:15 to night. Returning, the train will leave Strathcona every night at 10 o'clock, will reach Saskatoon at 11:55 the next forenoon and will arrive in Winnipeg at 6:45 a.m. of the following day. This train will run by way of Yorkton in accordance with the plans adopted some time ago.

The train will be a daily one, except on a daylight run through Saskatoon. The company have just completed terminals at Hardisty.

CITY OF WETASKIWIN
Tenders will be received by the undersigned up to twelve o'clock, noon, May 18th, 1911, for the construction of cement sidewalks in the City of Wetaskiwin (floor only) at a price per square foot. Plans and specifications can be seen at the office of the engineer.

The lowest or any tender, not necessarily accepted.
R. ROBERTS,
Engineering-Creator.

BECAME SO WEAK
AT TIMES COULD NOT WORK.
Mrs. George Ellis, Grandview, Ont. writes:—Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I suffered greatly with my nerves and became nervous and weak at times I could not work. A friend of mine advised me to try a box of your pills, which I did and soon found great relief. They are the best medicine I have ever taken for the heart and nerves. I recommend them to any one suffering from heart or nerve troubles. Milburn's Heart and Nerve Pills made the weak heart strong and the shaky nerves firm by imparting a strengthening and restorative influence to every organ and tissue of the body and curing the pituitary of the heart, dizziness, sleeplessness, nervousness, twitching of the muscles, general debility, lack of vitality, etc. Price 50 cents per box, or 3 for \$1.25 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

WEST LAND REGULATIONS
SYNOPSIS OF CANADIAN NORTH
Any person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of unattached homesteader. Duties—Six months' residence upon cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on terms of at least 80 acres solely owned and occupied by him or his wife, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price 3.00 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra. A homesteader who has exhausted his homestead rights and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$200.00.

The Hudson's Bay Company is 210 years old, dating back to 1667. It is Canada's oldest joint stock company with almost an unknown capital.

Indians are forbidden by law to sell horses without a printed permit giving a full description of the animal, the price paid and the name of the buyer and seller.

The record for tea pins on the new Wetaskiwin bowling alleys is only 202. Evidently they need a little educating in the game down there.—Leduc Representative.

The Dominion forestry station at Indian Head, Sask., last week shipped over two million seedlings, trees to the farmers of the prairie provinces. No evergreens will be shipped this year.

Calgary has just sold over a million dollars 4 1/2 cent bonds to the Bank of Montreal for 102. This is the best price in the history of Calgary, and about the best in the west. Six years ago the same bonds sold for 85.

The special committee appointed to arrange for the women's sport on Empire day are endeavoring to arrange for the Wetaskiwin baseball club to play Leduc and Alberta College are scheduled for the football game.—Leduc Representative.

In reference to a paragraph which appeared in the issue of The Times of April 27th, stating that a milk vendor in the city was delivering milk in bottles that were not clean, in all fairness to Messrs. Schreider and Wieberg, we desire to state that it was neither of these gentlemen referred to.

Stettler, May 14.—Between one and two this afternoon, are occurred at the residence of Major Grieg, when Mrs. Grieg and her daughter, who had been cleaning some dress material with gasoline and hung the dress up in the kitchen to dry, when they took fire. The kitchen was considerably damaged.

The question of whether we are to have a celebration this summer or not is about due for consideration. Would it not be a good idea for the business men and the sport enthusiasts to hold a meeting on a near date and arrange for a civic holiday and a sports day? Get together and talk it over—then act.

Let everyone keep hustling to improve the appearance of the streets and lots. Keep all kinds of rubbish off the streets and sidewalks, and see your houses, fences, etc., are neatly painted. There is nothing that helps the appearance of a town and induces new comers to settle in it more than neatly painted houses and fences, neat and tidy streets and sidewalks with shade trees on your lots. Let us see what you can do for the benefit of our progressive town.

Mrs. Georgina Gilvin, of Lacombe, who has been on trial in Red Deer on a charge of arson, was found guilty by a jury in the supreme court on Saturday, and sentenced to serve two years in the penitentiary. The case, which has been in many ways sensational, was short, but lively while it lasted. Mrs. Gilvin, with Samuel C. Wilson of Calgary, her son-in-law, was charged with having set fire to the Lacombe Produce Company, of Lacombe, March 2. The building was owned by Wilson.

With the continuous demand for residences to rent it seems as if there should be a splendid change for good investments for those who are in a position to be able to erect houses in town for rent. Hardly a day goes by without some new seeker for a house to rent, and every conceivable sort of building is now being used by different families. With offers of ten, twelve and even fifteen dollars a month for the poorest kind of houses it would seem that some one would step in and make some easy money for every it is in the majority of cases with those who have property in town to rent.

TEMPERANCE COLUMN Edited by The W. C. T. U.

PLEDGING

Thousands of men who are today among our best and most prosperous citizens are ready to unhesitatingly attribute much of their success in life to the fact of their having become pledged abstainers in their younger days.

There is no doubt that the mere fact of having signed a pledge has held many a young man and many a young woman on the line of absolute safety when temptation was presented. One is naturally inclined to please his friends. If invited to join other friends in a social glass, he is likely to desire to please by acceding to the request, and is only likely to decline in some strong motive restrains him. Total abstainers may have the endorsement of moral conviction. It may be a man's custom established as the result of his judgment concerning the practice of drinking. Such a man with no other restraints may sometimes conclude that there is no harm or very little harm in the taking of a single glass of liquor. When, however, the influence of his judgment is supplemented by the fact of a promise, then self-respect and personal honesty absolutely preclude his taking a step which everybody will admit is not absolutely safe, as is the actual habit of refusing.

One is that many men are to-day clear in brain, strong in muscle, sound in physical health, to a greater extent than they would have been because of the pledge they signed when boys. By his maintained sobriety, they have won position and advantage which could never have been attained had nerve power and accuracy been impaired by even moderate drink indulgence.

A pledge of total abstinence is a strength and a blessing with which we ought to seek to endow every young man who goes out into the dangerous streets of the energetic life of these strenuous days.

Unfortunately, the old total abstinence societies are out of fashion. The pledges and divisions and committees do not retain their one time popularity. Because pledges abstainers are fewer than they used to be, there is less of Sunday-school teaching and Church Band of Hope Work than there was in days gone by. This neglect is handicapping many strong people who, because of it, will not make as much of life as they would make if they were encouraged to take the stand of being pledged and sincere abstainers. We need a great revival of the old pledge-taking practice.

GOVERNMENT SELECTS DEMONSTRATION FARMS

Announcement was made last Thursday, by the Hon. Duncan Marshall, Minister of Agriculture, of the locations of the demonstration farms to be established this year throughout the province. There are seven farms located instead of six, as first intended, and the favored places are Medicine Hat, Carleton Place, Sedge Creek, Vermilion, Stony Plain and Athabasca Landing. These points were chosen from a total of 49 locations brought to the consideration of the minister, either by petition or delegation.

Was Troubled With Liver Complaint For Three Years.

Milburn's Laxa-Liver Pills will regulate the flow of bile to act properly upon the bowels, and will tone, renovate and purify the liver, removing every result of liver trouble from the temporary but disagreeable headache to the severe forms of liver complaint.

Mr. S. Nelson, North Sydney, N.S., writes:—I have used your Laxa-Liver Pills. I was troubled with liver complaint. I was persuaded by a friend to try your remedy, and after taking one I got relief. After I had taken three more I was cured completely, and I have not been troubled since, thanks to your valuable medicine.

Milburn's Laxa-Liver Pills are 25 cents per vial, or 5 vials for \$1.00, at all druggists or by mail direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Bittern Lake

The Bittern Lake ball team will play Perimeter on the 24th inst., at Lake View Park, (here), and a box social and dance will be given in the evening. Two fast teams out to visit. Mr. Jas. Hoover loaded a car load of fine hops for Edmonton on Tuesday.
Mr. A. L. Seidel, of Duhamel, merchant, was transacting business here Monday.
Mrs. P. M. Lindberg and family, of Wetaskiwin, spent the week-end with her sister Mrs. F. Nelson of this place.
Mr. C. S. Butcher is loading overal care of No. 1, millings, gets this week. Lakeside Park has been graded and leveled and fixed up in fine and ready for use.
The council gave John Dahl the contract for building sidewalks and crossings in the town, from south of the P.O. on west side of James street to Highway street across to the hotel and sidewalks and crossings to H. Nelson's lumber office, also a crossing to depot.
Mr. O. Torson, of Stettler is here now getting his lunch ready for service. She will be on duty by the 24th inst.

Presbyterian Notes

The ladies of the Women's Home Mission Society are planning to send a box of clothing to the Boy's Home and Hospital at Vegreville which are conducted under the supervision of Dr. Arthur for the benefit of the Russian population. A committee has been appointed to receive contributions of new or second hand clothing at the church or the afternoon of Monday, June 15th between the hours of 3 and 6. It is to be hoped that there will be a generous response. The same society has also arranged to hold a linen shower, at the Masonic on Monday, the 29th inst., at 4 o'clock in aid of Dr. Arthur's Hospital. The Sabbath school has just received a large consignment of books from Toronto to replenish the library. There are now upwards of two hundred books on the shelves and a catalogue is being prepared for distribution. The books will probably go into circulation on Sunday the 28th inst.
The pastor, Rev. E. McGowan M. A., will preach at both services next Sabbath. Morning subject, "How to Grow." Evening, "The Story of Ruth."

MOTHERS! DO YOU KNOW?

That when you put a salve onto your child's skin, it passes through the pores and enters the blood, just as surely as if you put it into the child's stomach? You would not put a coarse mass of animal fat, colored by various mineral poisons (such as many crude salves are) into your child's blood by way of the stomach? Then why do so by way of the pores? Take no risk. Use a salve the purest and most reliable provided in ZAM-BUK. ZAM-BUK contains no trace of any animal oil or fat, and no poisonous mineral coloring matter. From start to finish it is purely herbal.
It will heal eczema, ulcers, abscesses, eruptions, varicose ulcers, cuts, burns and bruises more quickly than any other known preparation. It is a simple, quickly applied, and safe remedy for all skin diseases, whether acute or chronic, whether on the face or on the body, whether on the head or on the feet. It is a combination of healing power and scientific purity. Ask these who have proved it.
Get ZAM-BUK and return the box or ZAM-BUK Co., Toronto, for price.

By a deal consummated a few days ago Mr. Stephen Svoboda, formerly owner of the property, purchased the Commercial Hotel in this city and has again taken possession of the hotel. The hotel is a fine building of two stories of growth, was also needed. A heavy thunder and lightning storm was hailed as a godsend. Everything was for the best. The people are smiling, the sun always shines and everything is full of hope. A man buys a building lot for a fabulous price. Some one else buys it from him at a higher figure, not because it is worth more but because property is going up. In this lighter, sunnier air Mr. Svoboda enjoyed himself, but was glad to get home to business. P.M.I. Pioneer.

Wetaskiwin Musical Festival

Mrs. H.C.R. Walker went to Edmonton on Monday to visit friends and enjoy the Musical Festival.
The baseball season is upon us and the Wetaskiwin baseball club is still unorganized. Several meetings have been called, but the boys, acting in a very indifferent manner, failed to turn out. Are they losing interest in the game, and if so, why? There is no town north of Calgary with better material for a fast team than Wetaskiwin and no men in the province would respond quicker to financial aid than would the business men of this city. Get together, organize, appoint a live manager—last year's manager—and get into the game.

Wetaskiwin is again this year being well represented at the Musical Festival being held in Edmonton this week. Mrs. H. J. Montgomery composed in the soprano solo event while Mrs. Chas. Boyer and Mrs. C.T. Holman were competitors in the mezzo soprano class. We regret that they failed to get any of the prizes, although they each made high scores. The Wetaskiwin Amalgamated Choir also went north to enter the competition. The members of the choir are: Sopranos—Megdalene Montgomery, Holman, Elton, Boyer, Kinnaird and Misses Crocker, Duggan and Chandler. Altos—Merediths Terry, McKenney, Williamson, Austin, Pettkin and Misses Nieman, Ramsey and Wyld. Tenors—Fathers Waltrous and Blom-Tippner and Kinnaird. Basses—Messrs. Ward, Holman, J. Gardner, A. Gardner, Weir, Castles and Peterkin.

J. A. Brice, of the firm of Brice, McKay & Co., returned home Tuesday evening from a four weeks' trip to Edmonton, Calgary, Wetaskiwin and other Western cities. He saw a number of former Islanders, all of whom are doing well. Mr. Brice speaks in glowing terms of the West. Among the things that impressed him most was the unbounded optimism of the people. Everything that came their way, was in their opinion, just the thing that was needed. One of the greatest snowstorms he had ever experienced came while out there. The people were delighted. It was just what they wanted. The snowstorm was followed by a frost, the mercury going down to from 35 to 80. This notwithstanding the fact that much of the grain showed an inch or two of growth, was also needed. A heavy thunder and lightning storm was hailed as a godsend. Everything was for the best. The people are smiling, the sun always shines and everything is full of hope. A man buys a building lot for a fabulous price. Some one else buys it from him at a higher figure, not because it is worth more but because property is going up. In this lighter, sunnier air Mr. Svoboda enjoyed himself, but was glad to get home to business. P.M.I. Pioneer.

Lumber and Building Material

Revelstoke Sawmill Co. Limited

Wetaskiwin, Alberta

CONCRETE

THE SALVATION OF THE FARM

It is only a few years since concrete was generally accepted as a reliable building material, yet the difference which this convenient and economical form of construction has made in the outlook of the farmer in these few years, has done much to revolutionize things on the farm.

The growing scarcity of lumber and its consequent rise in price, has gradually caused that commodity to assume the general aspect of a luxury, so much lumber is used on the farm for buildings and fences that it is extremely high priced and a luxury, but real relief did not come until concrete was proven by actual tests to be not only practically, but to possess many advantages over wood as a building material.

The uses to which concrete can be put are practically unlimited, and the particular use on the farm already the fact includes forms of construction ranging from the large hip-roofed barn, to the small outhouse, to the neat egg that encloses the brood sows. These uses have been extended already, in a series of experiments conducted under the auspices of the Canada Cement Company, on farms throughout the country. This large concern, which has gathered the concrete building process in Canada, has been a large factor in the spreading of knowledge of concrete and its uses. Recently it has distributed 1,000 copies of a book entitled "What the Farmer Can Do With Concrete." This book contains information which makes it possible for any farmer to do almost any kind of construction work around a farm with concrete, and is given free of charge. This generous distribution of literature and the efforts of this firm to show the farmer how practical concrete really is, have earned for them the highest of commendations.

The most recent plan to introduce concrete to the farmer is a contest arranged by the Canada Cement Company. The firm has asked which concrete is planned are broad enough to

lead health officer. He must look to the cause to be found on his own farm. A great deal is now being done along these lines, and in many places, particularly in the West, it has been found that a number of the causes of sickness can be avoided by the use of concrete.

A common sense view of the situation shows that the simply-handled material is peculiarly well adapted to the needs of sanitation and in preventing germs from spreading.

Possibly the place which most needs it is the barn. If it is a situation that is unhealthy, the place is a danger to the health of the family. It is a situation that is unhealthy, the place is a danger to the health of the family. It is a situation that is unhealthy, the place is a danger to the health of the family.

Not only has the modern farmer studied out a method of guarding against sickness from sources which might, in the case of even milk, be termed, in fact, it has gone a step further and has decided that the barnyard must also be subjected to such changes if dairy hills and other little are to be done.

The average barnyard, where are many worse, better—consists of a stack of hay or straw, a manure pile, a watering trough, and a spongy, oozy mass of mud, dirt, and litter, in between and all around it. Farmers will recognize this as being familiar, even those whose farms are models in other respects. Until recently it has seemed almost impossible to change this.

papers, etc. The only exceptions are meals and medicines.

3.—All public games or sports and the business of amusement or entertainment.

4.—All excursions for hire and with the object of pleasure, by train motor, or other conveyance.

5.—Advertising in Canada, unlawful things to take place on Sunday, either in Canada or across the border.

6.—Importing, selling or distributing foreign newspapers on Sunday.

7.—All work on railways—building, construction, repair work, excepting the forwarding of through passenger or freight trains.

The Penalties

From \$1.00 to \$40.00 for any person committing a violation.

From \$10.00 to \$100.00 for any employer authorizing or directing a violation. This includes foremen, superintendents, managers, etc.

From \$50.00 to \$500.00 for any corporation authorizing, directing or permitting a violation.

It is the duty of both municipal and mounted police to see that these laws are observed.

Any other neglecting his duty shall be promptly reported to headquarters.

Mr. L. L. Borden, the Dominion Conservative leader, is announced to speak at Wetaskiwin, on his western tour on the afternoon of June 23.

Radway's Ready Relief

FOR OVER 30 YEARS

Radway's Ready Relief

has been the family doctor and the only one that is sure to cure. It is a simple, safe, and effective remedy for all the common ailments of the human body. It is a true and reliable remedy for all the common ailments of the human body.

Radway & Co., Ltd., Montreal, Canada.

City Council

The regular meeting of the City Council was held on Tuesday evening, May 23rd, 1911, at 8 o'clock, with all present except Ald. A. W. and Chandler.

Minutes of previous meeting read and adopted.

Correspondence

The resignation of D. French as city weighmaster was read. It was moved by MacEachern—Wagner—that the resignation be accepted. Carried.

W. J. Loege gave as his opinion that the arrears of taxes for the year 1909 on the Wetaskiwin Dairy Association property was not collectible as they had not been assessed for that year. Olin—MacEachern—that the amount of this assessment be written off the books. Carried.

The report of Mr. Parsons, electrical expert, was the next letter. It was moved by Olin—Wagner—that the report be acknowledged and that it be referred to the electric light committee. Carried.

The E. L. Richardson, secretary of the Provincial live stock association wrote the construction of pavements which were injurious and dangerous to horses. Olin—MacEachern—that the letter be filed and acknowledged with thanks. Carried.

The Wetaskiwin Hardware Company wrote asking if it was the intention of the city council to ask for tenders for the supply of oil, grease, packing, etc., used at the power house. It was moved by Olin—Wagner—that tenders for these supplies be asked for. Carried.

A petition signed by a number of the residents of Hosenell, and Leonard streets, was then presented, asking that the water main be extended to enable them to make connections for the city water. Olin—Wagner—that the petition be referred to the waterworks committee to report at next meeting. Carried.

The petition of J. H. Knowlton for the position of city weighmaster was read. It was left on the table to be considered at next meeting with any applications that might be received. Carried.

A large batch of applications for the position of second engineer at the power house was referred to the electric light committee. Carried.

The plans and specifications for the new post office, which were placed on the table were then considered in committee on the whole. After being considered in a general way, they were approved with certain detailed recommendations. Carried.

Reports of Committees

Ald. Ellis on behalf of the committee to consider the charges for the tax, reported that the charges were not excessive compared with the Central Alberta price. Ellis—Olin—that the report be carried. Carried.

The following accounts were then passed for payment: electric light \$238.63; waterworks and sewerage \$20.20; general \$117.78.

MacEachern—Ellis—that the account of Mr. Parsons of \$40.00, for reporting on the condition of the electric light plant here, be paid in full. One-half of the account be charged to the electric light department and one-half to the waterworks department.

A discussion then took place as to the condition of the sewerage ground when it was moved by Ellis—MacEachern—that the sewerage inspector inspect the sewerage grounds weekly, and when found to be in an unsatisfactory condition, to report to the council. Carried.

The public works committee reported on the recommendations of Fire Chief Whitehead and advised the extension of the fire hall, the purchase of horse drawn apparatus, more hose, etc., but the consideration of the report was left over until the adjourned meeting.

Fire Chief Whitehead then made the request that a telephone be installed in the fire hall. The request was complied with on motion of MacEachern—Olin.

Ald. Wagner on behalf of the committee reported having planted 250 trees on the north side of the park at a cost of \$29. The action of the committee was approved on motion of Wagner—Olin.

Ald. Olin on behalf of the public works committee recommended that a grant of \$500 be made to the agricultural society to erect a building similar to the one at present on the grounds. On motion of Ellis—Wagner—that the construction of the report was held over until the adjourned meeting.

The special committee appointed to investigate Mr. Roberts' connection with the graft charges to the tax sale reported entirely exonerating that official from any suspicion of wrongdoing in connection with the matter. The report was unanimously adopted on motion of MacEachern—Ellis.

Tenders for the labor of constructing the cement sidewalks were then opened as follows:

W. S. Scott, 14c. per square foot for the curbs and gutters.

Hans Anderson, 12c. per square foot for the walk and 30c. per linear foot for the gutters.

The report of the government inspector of meters was then read, stating that the meters (from the curling rink) sent him for inspection were legally correct, as it only ran one-half per cent. fast. The mayor pointed out that it was very strange that the account for December should be practically the same as the amount for January and February combined. Ald. MacEachern stated that he was not in favor of making any rebate on the account as it was not fair to the other users of light. It was moved by Wagner—Ellis—that the clerk inform the curling club that the test proved the metre to be correct and that in addition to the account rendered, there was a charge of \$1.00 for having the metre tested. Carried.

By-law No. 120, appointing Harry Whitehead fire chief, to hold office for the term of one year, at \$45 monthly, be to have power to select and dismiss men, to have charge of the tanks, hydrants, hose, etc., and also appointing the said Harry Whitehead as assistant constable, at a salary of \$45 per month, was read three times and finally passed. Thomas A. Ward made application to have their slaughter house connected with the city power plant, as they wished to drive their two hogs, monitor with electricity. It was moved by Ellis—Wagner—that they be informed that owing to the great cost of stringing the wires, the council can not see its way clear to comply with the request at present.

J. H. Payne complained that it was impossible to have the entrance at the rear of his lot, and that he had been forbidden hauling material for his new house over the sidewalk. The matter was referred to the chairman of the public works committee with power to act.

It was then moved by Olin—MacEachern—that a heavy vote of thanks be tendered D. Riker for the twelve excellent views, framed, of timber and camping grounds in his camp which he generously donated to the city. Carried unanimously.

The matter of appointing trustees to the Wetaskiwin Hospital Board was then brought up, when it was moved by Ellis—Wagner—that the appointments be proceeded with. Carried.

Ald. Olin and Chandler were selected to represent the council and Messrs. H. J. Montgomery, T. Torrance, A. S. Borden, J. R. Kelly, A. G. Gross, J. U. Thibault and Mayor Fowler were chosen to represent the public. The clerk was requested to notify the above parties of their appointment and requesting their acceptance of the office.

Wagner—MacEachern—that certain work be done at the cemetery, not to exceed more than \$25. Carried.

Meeting adjourned until Thursday evening.

CREAMERY DRACULA

1.—Thou shalt keep thy cream sweet and in a cool place.

2.—Thou shalt not say that thy cream separator and cows are clean enough, but wash them before using.

3.—Thou shalt not keep thy cream in a tin or a mouse trap, but cover the can up.

4.—Thou shalt remember thy cream days and come with or send thy cream to the creamery.

5.—Thou shalt not say that thy test is not high enough when thou art putting milk and water in thy cream.

6.—Thou shalt not go to thy neighbor and kick about thy buttermaker, but come to the creamery with thy kick.

7.—Thou shalt not make butter at home that weighs but thirteen ounces to the pound and say thou canst make more butter than thy buttermaker.

8.—Thou shalt not tell thy neighbors truthfully how thy cream checks have assisted thee and encourage them to send their cream to the creamery.

The crop outlook could not be better than at present. This week's rain was just the thing, and the vegetation is coming up nicely. Fall grain is doing well, and the spring sowing has got a good start. Every thing points to a bumper crop.

Christian Pfoffner, the manager of the Prince of Wales hotel is having the premises renovated and will have a hand stained where the boys will be playing football for an hour or so.

Orchestra music will also be rendered each evening during the week and at dinner on Sunday.

The special committee appointed to investigate Mr. Roberts' connection with the graft charges to the tax sale reported entirely exonerating that official from any suspicion of wrongdoing in connection with the matter. The report was unanimously adopted on motion of MacEachern—Ellis.

Tenders for the labor of constructing the cement sidewalks were then opened as follows:

W. S. Scott, 14c. per square foot for the curbs and gutters.

Hans Anderson, 12c. per square foot for the walk and 30c. per linear foot for the gutters.

J. LOCKE. Prop.

Liquor License Ordinance

Application For
Renewal of Hotel License

Application has been made by Peter Weller, for renewal of his hotel license in respect to the Alberta Hotel situated on lots 3, 4, and 5, block 10, Wetaskiwin.
This application will be considered by the Board of License Commissioners at a meeting to be held at Wetaskiwin, on Thursday, June 8th, 1911 at 2 o'clock p.m.
Dated at Edmonton this 8th day of May 1911.
L. P. CLARKE,
Deputy Attorney General

METHODIST CONFERENCE TO MEET IN CALGARY MAY 23

The Alberta Methodist Conference will hold its annual meeting in Central Methodist Church, Calgary, commencing May 23, when over 300 ministers and lay delegates are expected to be in attendance.
Rev. Dr. Chown, general superintendent of the Methodist church will be present and will preside at a number of the sessions, with the president, Rev. Mr. Aldridge of Wetaskiwin.
Among the prominent men from Eastern Canada, who will be present are Rev. Prof. Jackson of Victoria College and Rev. Dr. Graham, general secretary of education.
Arrangements are nearly completed for the lodging of the members to the conference, which will be on the Harvard plan of bed and breakfast. The coming meeting of the Alberta conference is expected to be the largest and most interesting ever held by the denomination of the province.

FIRST BAPTIST CHURCH

The pulpit will be occupied next Sunday morning by the Rev. A. R. Aldridge, B.A., in exchange with the pastor. In the evening the pastor will conclude the series of sermons on "The Parables of Jesus," the subject being "The Wise and Foolish Virgins." The Song of The Soldier will be sung by the choir in the evening.

Seed Potatoes

For Seed, Varieties adapted to Alberta Soil and Climate. "Extra Early Red." A week to 10 days ahead of Early Rose very dry cooking good yielding. "Potentate" medium early round white potato, very dry cooking, heavy cropper, good keeper. Price \$1.00 hundred at garden 1 mile west of City.
Notice: We will have no plants for sale this season except Celery.

City News Items

Mr. and Mrs. H. S. Craig were visitors at the Capital over Arber Day.

Mrs. G. H. Taylor went to Edmonton last week to spend a few days with friends.

The management of the Public Hospital Board wishes to acknowledge the receipt of \$14.40 from the Young Ladies' Hospital Aid Society.

L. E. Standefer shipped his string of five horses to Edmonton on Monday in care of Chas. Howell, the trailer.

R. J. Gaunt, who has been attending the university at Strathcona for the past term, came down last week to renew acquaintance.

W. H. Odel and bride arrived in the city on Friday last from the east and will soon be settled in one of the Taylor houses on Rosehill St.

L. U. Fowler, one of the weed inspectors of the Provincial Department of Agriculture, arrived in the city last week and has taken his residence on Beatrice street. Mrs. Fowler, who is now in Edmonton, will come down in a few days.

The secretary of the local school board has sent a communication to the Wetaskiwin school nine offering to play the latter at Wetaskiwin to-morrow, May 12th, but so far no reply has been received. Are the Wetaskiwinners afraid?—Camrose Canadian.

Two young men named Hans Ronde and Ludwig Aker, of Bawil, appeared before Justice Davidson yesterday, charged with creating a disturbance and assaulting two Chinamen in their home town. Fines and costs amounting to \$25.00 for Ronde and \$24.00 for Aker.—Daysland Press.

Mrs. Barnard and daughter left last week to spend a couple of months at the west of her mother at Brandon.

The Misses Helen of Calgary arrived in the city on Friday last to spend some time at the home of their sister, Mrs. L. D. Hanna and visiting friends.

D. French resigned his office as weighmaster for the city on Tuesday to accept the position of Pharm. Sec. in connection with the connection with the hospital for the insane, at Ponoka. He takes up the new duties at once.

Mrs. French is well qualified to fill the position, as she has had several years experience at similar work.

An auction sale of bulls will be held on the exhibition grounds at Lacombe, on May 21st under the auspices of the Alberta Breeders' Association and the Alberta Department of Agriculture. A large number of bulls of the different breeds are to be offered and the catalogue will be ready by May 25th. It is expected that reduced passenger rates will be in force on all routes.
